

TCM Forklift Part

TCM Forklift Parts - Forklift trucks are an important player in the material handling field of every international industry. Transporting industrial goods occurs every day on our industrious planet. Primarily innovated as industrial vehicles during the 1930s in the United States of America, forklifts gained recognition after World War II in the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these machines spread globally.

In the year 1949, established by Mr. N. Niwa, the original Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was recognized. Currently the company is simply referred to as TCM Corporation. Over the years, TCM forklifts have become a global leader in lift truck manufacturing and have built a solid reputation in the industry. TCM started constructing forklift manufacturing sites outside of Japan in the 1980s and is now engaged in lift truck manufacturer at three foreign factories in Europe, China and the United States.

With more than 50 years of accumulated technology and expertise, TCM has been proudly manufacturing several models of industrial lift trucks, making their models known all around the globe. With a strong and energetic employees, TCM has been able to constantly work towards becoming a future leading material handling business.
