

Clark Forklift Parts

Clark Forklift Parts - Presently, there are over 350,000 Clark forklifts performing worldwide, and upwards of 250,000 in use in North America alone. With five major lines across the globe, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand powered trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, covers more than 120,000 individual items fabricated for 20 exclusive brands of lift trucks and automated equipment. Your regional Clark Dealer is your total source for availability of all your parts requirements supplied by Clark Totalift.

Clark's exceptional Parts Distribution Stores are conveniently situated in Louisville, Kentucky, which serves both their clients and sellers in North America, and Changwon, South Korea, which handles their Asian sellers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing producers. Motivated to supply the highest level of value and service to our customers, Clark remains on the leading edge when it comes to enhancing efficiency and benefiting performance.

Clark Totalift has a very outstanding worldwide support network. With over 550 locations globally, seller representation in over 80 countries and 230 locations in North America, their high level of dedication to their consumers predominates the materials handling industry.

Clark proudly remains an innovative leader of the material handling industry, revolutionizing protection features such as the operator restraint system. This exceptional commitment to safety is now a standard feature on every forklift.

Clark's continual effort to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift producer across the world to be certified with the internationally approved quality standard ISO 9001 for every one of their production plants. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any number of environmental limitations, thus placing them in a dominant industry position.

Clark has chosen the structure of "Lean Production" at all of its assembly plants because this system is particularly economical and permits minimal use of resources. Established to guarantee maximum proficiency, this system is designed to discover and acknowledge the most efficient methods for manufacturing plant management. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers communicate together to enhance the proficiency and brilliance of their merchandise while minimizing costs. The new value engineering program combines progressive product improvement and provides improved client support and service within the industry.
