

Concrete Hoppers

Concrete Hopper - This attachment is a self-dumping hopper which automatically triggers to dump as soon as bumper release contacts the side of a dumpster. As soon as unloading is finished, the hopper goes back to an upright and locked position. This piece of machinery likewise comes along with a cable which allows operation from the seat of the lift truck in order to have the option of manually unloading the hopper. There is a locking chain provided so as to secure the hopper to the fork truck. This product is constructed with consistent and reliable robotic welds for maximum strength. The forklift dumping hopper also has a blue powder coat finish to be able to maintain durability.
